

# April 22, 2010

Thursday, April 22, 2010  
5:22 PM

Seven members present at samson house at 7PM.

## Old Business

Fort - Richard has the compressor running needs round corn cobs from company in Arkansas. Corn cobs are the Median to clean the fort house so it doesn't damage the building. Won't spend more than a hundred on the corn cob media to clean it. Progression on the fort was to clean it, treat it and chink it. Working on the cleaning stage now.

Spring Clean Up... Raking, trimming branches, pick up coffee seeds - April 30th at 1PM.

Painting the Gus House, waiting on bid from Tom Hare before we can make decision. Vista paint is supposed to be the best paint to use for exterior and interior.

Boarding house is now raised and a pad has been poured. Its good enough now so we could put the post in it. Furnace installed by fall. Need to clean up the dirt and boards in the basement so we can work in the basement. Need work done at the boarding house.

Voted to do more work on website to finish up the write ups on the sites and to do the online shopping cart. Burdette motioned to have Jennifer spend 8 hours of which 4 would be paid time at \$25 an hour and the other four hours were donated time. Carmen seconded all ayes carried. There would be more discussion to further finish the site once this portion is completed.

Jennifer is to send out letters to the schools about tours in May or the beginning of the school year next year. Carmen gave the list to Jennifer. Need to send them out next week.
